Over-Work Weakens Your Kidneys.

M. Walt, J. B. Parray and Unhealthy Kidneys Make Impure Blood,

All the blood in your body passes through Martin, W. R. Devidson, and W. D. Calle and J. Ca

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is they had heart trouble, because the neart is over-working in pumping thick, kidney-poisoned blood through veins and arteries. It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney troubles.

Farmville Farm Agency

immigrants to the United States came

Undesirable from the countries of western and northern Europe.

In general, the were industrious and thrifty. When they arrived their tendency was to scatter among the farms of the west and northwest. Many of them spoke our language; most of them were accustomed to free institutions. They were British, Irish, Gertheir work.
Pains, achesandrheumans, French, Swedes, when they came; then they became British-Amerleans, Irish Americans, German-Americans, and so on; then they or their children dropped the prefix and the hyphen, and are now plain Americans. Of late years, says Youth's Compan-ion, there has been an alarming increase of immigration from eastern and southern Europe. Twenty years ago Poles, Huns, Austrians, Russians all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake be first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and it sold on its meetics by all druggists in tity cent and one-dollar size and its sold on its meetics by all druggists in tity cent and one-dollar size as you may have a sample bottle by mail Rome of freenpRoot free, also pamphiet telling you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer Sc. Co., Binghamton, N. Y. and Italians made up altogether less the Poles in Illinois, five-sixths are in cities appears in New York, Massachusetts and other states. Chemists prepare tables showing how much time different kinds of food require for digestion. If similar tables were to be prepared for the body politic, it would be found that the earlier type of immigrants required a comparatively short time for assimilation, and that those of the later type are assimilated with extreme difficulty, if at all. Every crowded ship load of this class of immigrants adds to the public burdens and teaches the need of restrictive leg-

> thousand to South Africa and evident-Our Horses and ly created a favor-able impression. Within the last two years many American horses have seen service with our soldiers in the Philippines and in China. Whether our horses are better for military and general service or not, their appearance in the orient has directed attention to horses and cattle in this country. Thirty and forty years ago American cattlemen and horsemen were sending compiltees to England and continental Europe to purchase horses and cattle for breeding purposes. Nearly every live stock district in the middle west had Its commission in Europe investigating methods and purchasing animals. Now we have in the United States a Japanese commission made up of government officials and live stock specialists to select horses and cattle in the different sections of this country for Japan. It is significant, remarks the Chicago Inter Ocean, that this commission comes first to the United States and will visit the countries of Europe later. This means that the United States in not more than 50 years has become, through the attention of its horse and cattle breeders, through its variety of climate and soil, through its great extent of territory adapted to the growing of the finest horses and cattle, a center of interest to the live stock men of other countries. Unand mules growing out of the Boer war was of great advantage to our farmers and stock growers, and possibly the visit of the Japanese commission growing and to purchase typical American animals is the beginning of a movement that will stimulate our ranchmen and farmers to continue in those efforts that have given us the finest horses and cattle in the world.

American mules were sent by the

Dr. D. K. Pearsons, 81 years old, who has given \$3,000,000 to small colleges providing other persons gave \$9,000,-000, says most of his fortune has been donated, reports a Chicago exchange "What an investment this has been! declared the philanthropist, musingly "It is far better than making money I feel as if I am drawing 25 per cent. on my investments. I wish I could tell every rich old fellow the satisfaction there is in this giving. There are a few I have stirred up. I would there were more. I am glad I was a pioneer and helped stir this up. Why, now i is fashionable to give money to colleges. I have given something more than \$3,000,000, and this has caused others to give \$9,000,000 to meet it." Then came a chuckle from the doctor

A recent report says that a number enabled to pay them a very delicate compilment by taking the ax out into the shed and killing a pice plump grad.

The animal was an intelligent one at times it found enjoyment in teast ing its mistress, and at breakfast the other day "Jack" insisted.

PRINTER GIRL'S BRAVERY.

FARMVILLE, VA., FRIDAY, JANUARY 10, 1902,

Owner, Who Afterward Married the Pincky Maid.

The mining town of Sonora, Ariz. stood dark and still in the faint mon-light. Hardly any signs of life were visible, and yet here and there the monlight would glisten on the barrel of a rifle or reveal a stealthy figure

The war for the possession of the famous La Cananca mine was on and Sonora was an armed camp, ready at outside, who were struggling to selze rifles at the far end of the town and

GIRL WHO SAVED THE MINE.

instantly the men on guard around the mine made a rush in that direction. As they did so some 50 shadowy figures rose up from behind the rocks and, running swiftly and yet as silent-ly as hounds, came dashing into Sono-ra on the unguarded side. They made straight for the fabled La Cananea, and with no one to dispute their progress soon would have been in pos-session of the prize, when suddenly from the window of a little house that of a rifle, and one of the raiders went

Then came bullets from the house av fast as the unseen person there could work the ejector of a repeating rifle. The raiders halted and opened a heavy fire in reply that fairly riddled

the house which barred their proghad arrived to help the single person who was fighting back 50, and the raid

ers broke and ran.

The girl who saved the La Cananea was Maria Proctor, the daughter of one of the contractors for the mine. W. C. Greene, the man who was holding La Canance against almost over whelming odds, was told of how one girl had fought from a thin board shanty to save his property. He fell in love with her, and though she was poor and had been forced to earn her country in the world, says the Chica-

story window of the house at 313 Maxwell street, Chicago. Mrs. Cella Jacobs, owner of the dog, declares it was a clear case of self-destruction. as he added: "And perhaps some of themdid not want to shell out, either." at the street station said they saw the animal leap from the window to the ground. "Jack" struck on his head of American bronze turkeys have been and his neck was broken. He was presented to King Edward, and they dead when police officers from the will be kept at Sandringham. When station hurried from across the

companient by taking the ax out into the shed and killing a nice plump gobbler with which to regale his guests.

Indigaset.

The Ziegler-Baldwin expedition, other day "Jack" insisted on walking equipped by Mr. William Ziegler and on top of the table. Mrs. Jacobs under the command of Mr. Evelyn remonstrated and her husband chase Baldwin. bler with which to regale his guests.

The Cincinnati Times-Star prints a thrilling story of how two Cincinnati men who were startled by the appearance of a great serpent finally killed the animal. Serves the serpent right. If it had stuck to the seacoast it would never have been killed.

on top of the table. Mrs. Jacobs remonstrated and her husband chasting the dog. Jack ran about the rooms in a value search for an avenue of escape. For several minutes the route of the Jeannette, starting from the Lena river.

An expedition under M. Stokken, to Franz-Josef Land, which appears to be designed to cooperate with Namen and the rooms in the solution.

FACTS AND FIGURES.

At the age of 30, the saverage Engishman weighs 156 pounds, the aver-

south.

A big oyster bed near Mobile, Ala. has been sold for \$130,000. It is esti-mated that there are \$100,000 worth of oysters in the bed at this time. If a lead wire will sustain a weight

of 28 pounds, a copper wire of the same thickness will uphold 320 pounds, and one of iron 549 pounds. This spring's cantaloupe planting in Colorado is the heaviest in years as a natural result of the great demand for the Rocky Ford melons. Last year 2,500 acres were devoted to growing these melons and nearly 800 carloads were shipped out of the state.

In ordinary apple years the waste In ordinary apple years the Waste of skin and cores amounted to 500 to 600 car loads, and during years of abundant yield it ran as high as 1,200 and 1,700 car loads. All this waste now goes to the factories which make cheap jellies. There are upward of 140 of these factories in this country, and they have an annua capacity of some 200,000 pounds.

The present expense in salaries for the judiciary is as follows in York city: Supreme court, New York county, \$192,000; surrogate's court \$100,000; city court, \$119,000; city magistrates, \$327,000; special ses-sions, \$122,000; general sessions, \$182. 000; municipal courts, \$180,000; su-preme court, Kings, \$159,000; surro gate's court, \$50,000; Queens county courts, \$28,000, and Richmond county courts, \$12,000; a total of \$1,750,000.

IN THE SUPERLATIVE DEGREE.

The most expensive barbor in the world is that of Cherbourg, finished for him and said:
by Napoleon at a cost of \$13,000,000.
"No, my son; I think I'll let you The best five years' average for live."-Tit-Bits, bowling belongs to G. Freeman, who between 1867-1872 bowled 2,336 balls, and took 258 wickets.

The most costly state funeral which has ever taken place was perhaps that of Alexander the Great. A round million was spent in laying Alexander to his rest. The body was placed in a coffin of gold, filled with wouldn't play."—Yonkers Statesman. costly aromatics, and a diadem was placed on the head.
